An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 4-19 have been canceled.

Drawings

The following changes to the drawings must be made: In Figure 6, the marked out "Figure 2" must be deleted. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Martin (U.S. Patent 2,633,253) teaches lateral feed channels and collection channels, but they are formed in a manner that is not a trough. Also, the configuration with respect to demarcated parking spaces is not discussed. A rejection in view of Martin would have required excessive hindsight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
